FAQ: Indication on the project work

- You have to write a paper work and present it through a .ppt presentation
- Your paper work should be almost 15 pages
- The exam is a project, you have to select a location, choose a project and apply a technology, you should use the logical framework matrix to describe the actions, the results, the costs...

It would be good if you think as you are looking for sponsors for your project and we are possible sponsors, the presentation should last 10 minutes.

The outline of the projects should be the following:

Introduction about:

one country

one specific location

one problem related to energy: environment, food processing; water...

one technology that can be helpful

one project divided in:

- overall objective
 - specific objective
 - 4 results
 - 16 activities
 - budget
- timeline
